You start by selecting the main character and a class. After that, you will visit the world map, go through the tutorial, and start living the story. The game is not a "level up" game. You will continuously go back to the main menu and select new classes as your character levels up. ABOUT ELDEN RING KICKSTARTER: The Kickstarter campaign will be open for a limited time. The campaign is live on Steam. "Elden Ring is a fantasy action RPG in which you control a character as they explore the vast world of the Lands Between and play your favorite class. The game is rich in personality, with an outstanding world and an engaging adventure. The story is narrated by an in-game character voiced by a professional voice actor. Players receive plenty of quests along the way, and can customize their character in numerous ways." ABOUT ELDEN RING KICKSTARTER CAMPAIGN: The Kickstarter campaign will be open for a limited time. For more information about Elden Ring and Elden Ring Kickstarter campaign, please visit: -- VISIT THE ELDEN RING WEBSITE -- -- FIND OUT MORE

ABOUT ELDEN RING -- -- BE FRIENDS WITH THE DEVELOPER -- PLEASE: Read the current Elden Ring Kickstarter campaign on Steam before donating, as the current campaign will be the one in which the game is released. In the case of the game's release after the campaign, the game will be under development and thus the campaign will be abandoned. The present invention relates to apparatus and methods for the drying of fluids, and more specifically, to machines and methods to control the wet-up of said fluids using ionic and/or active elements. More particularly, the invention relates to apparatus and methods to dry fluids in a controlled fashion to minimize the formation of aerosols. Various methods and apparatus have been developed to form liquids into dry particulate forms. Most, if not all, of these machines are used in conjunction with electricity; for example, to activate reactants and/or to heat, cool and/or freeze the reagents. Such electrical power is usually provided from an AC line or from a battery, or sometimes from a generator driven with internal combustion engines. In the process of drying operations, an aqueous medium (a liquid) is formed into a high-velocity g

Emails suggest NASA cut out scientists to design its latest mission. "This was a classic example of experts being cut out of the process. We have been marginalized and treated like second class citizens," said Walter Mead, PhD, chair of the biological and environmental sciences division at NASA's Ames Research Center in Moffett Field, California. NASA has been using "team science" to collect data from seven different missions funded by different agencies over three years - and an interplanetary cruise
