with a new and exciting gameplay experience. by Ruben van Haren June 25, 2005 BCJB1-3 has arrived! "Exciting puzzle game" searching the puzzle games' popularity in the internet.BCJB1-3 has been released, and is therefore no longer available for testing. The selected issues of JSGet - Developer BuilderBook1, BossBuilders and BuildersLoftEstate are no longer available for downloading, but both manuals can be found on the website. Download the trial version of BCJB1-3 to find out more about the powerful functionality of BCJB tools, which are working as a puzzle helper. The official version will be available for download in the future. Piero's Daily Challenge is a new event that enters Group 'NJY'. The daily leaderboard is a good reference point, and you may ask staff members for assistance if your game is falling behind. Please click 'games' at the top of this page to visit the Group page. If you want to do something random, check out the new 'Randomizer', which is hosted by Jernej. This will use standard utilities to supply a new psuedo-random puzzle at random times, mixed in with more popular games, such as CLXsio.com Challenge. JAP1-15 has been released. This is a general release, and therefore both versions JSSe for Windows. (JSSE for ATi] and JSSE for Intel) are available to download. The Office version JSSe for Mac is still under development, and has not yet been released. Unfortunately, JSSe tool of the previous version JAP1-14 has not released a new version. Therefore, JAP1-14 is no longer available for testing. The version 3.2.0 is already in development and with a new version 3.2.1 will be released together with a new version of JSSe tool. Quests and Champions are now in a cross-over universe in Feeding Frenzy: Champions! Each week you'll have a new champion and a new quest. You're already part of that universe but now you can be a part of the Champions universe too. The more champions you have, the more quests you unlock! Join the Feeding Frenzy: Champions universe and fulfill the quests you have. Unlock more at each tier. All champions and quests are denoted with a unique icon. Each one has an associated Champion Skin for you to unlock in game and a gilded medal that you can view in the Multiplayer panel to earn extra progress when reaching the same level. Gold and Silver medals you unlock in Feeding Frenzy: Champions will also count as progress in the original Feeding Frenzy. We hope you love the feed! You can also download the companion app for Feeding Frenzy: Champions in Google Play and App Store!The question is, where do you fit in? Feeding Frenzy: Champions is a 2D action RPG where you play as a blue furry creature called a Royal. You have gained the ability to speak to animals and can team up with them for team fights. The main events are the weekly Feeding Frenzy where you'll battle against other Royal Champions and earn in-game loot! But you have to be careful in these events because fighting in events could lose you the ability to speak animals and if you lose too much health you'll be forced to sit out the events. You can also team up with other Royal Champions in Raids to take on bigger monsters and uncover secrets. FEATURES (11) Seasons - Each Season has over 50 quests! Every quest and champion has a seasonal counterpart. You can visit any events in any season that aren't locked to a specific season. (11) Quests - Each quest will earn you a Gold Medal for the one related Champion. (15) Supports - Supports are events where you can place down an item to help your allies. These items will remain on the field even after an event ends. (11) Medals - You can earn all Medal types for all Champions. (150+ more) Collectables - Every progress made counts for both Feeding Frenzy and Feeding Frenzy: Champions! (11) Support Bundles - Supports in a bundle can be used together in your party! You can also purchase a premium bundle to get multiple items at one discounted price. If you get an item bundle, it will become a free-to-play item.
