# Crack Para Droppix Label Maker 2.9.8 PORTABLE

## [Download](#)

Gain greater control over the printing process and produce professional-quality documents and labels with the advanced features of Droppix Label Maker. From importing, deleting, duplicating, moving, or creating a custom label template, you can perform all of your label printing tasks with ease. Label and template features: In

---

addition to label printing and template creation, Droppix Label Maker provides full printing functionality. Create a new label or template, or use a template from within the software, then print as many copies as you want. Enable the snapping feature to place or align text on the edges of a document, with exact placement and sizing control. Create or edit a label in various ways to achieve a perfect fit. You can also create custom label styles and formats. Build complex documents and labels from a rich selection of included business or professional-quality templates. Add your own custom fonts to any label. A design tool makes it easy to edit or create your own fonts. Create custom backgrounds for your labels. Set an image as the background for any label or template, or use a background from one of the included templates. Place images, text, and graphics on your labels. Use any of the included professional-quality business or text

---

templates, or create your own. There are more than 120 available templates, which can be arranged in a variety of ways.

Create a template for a specific type of project, such as a shipping label or a photo album. A new project wizard allows you to simply create a new label or template and then begin designing your project. Design labels on a layout grid with exact placement and sizing control, or use the flexible layout tool to create your own template. Edit labels with the text tool, or replace text with a new image. Paste a graphic into a label or a template, resize it, or reposition it. Using the full-featured graphics tools, you can add graphics to a label or template, or create your own. Using the full-featured design tools, you can add shapes and text to a label or template, and even create your own graphics, fonts, and artwork. With both a selection and design tools, you can design and edit graphics, shapes, and text. Enhance your creations

---

with a large selection of special effects, including shadows, gradients, reflections, and more. You can also add and edit existing templates. From the template designer, you can use the drag-and-drop tool to arrange and rearrange all of the included
