The aforementioned Elden Ring Online (ENO) is an online role-playing game (RPG) developed by Arc System Works (ASW). ENO is also the only online game in ASW's lineup, and is a complete package to be played both online and offline. ASW promises a traditional and original fantasy RPG experience that is different from other online RPGs. ENO is a collaboration between ASW and Cleaversoft Co., Ltd.

Cleaversoft Co., Ltd. develops the game. ENO has 3D graphics, richly drawn illustrations, and a rich, three-dimensional (3D) environment. It also offers an innovative combat system that combines the skills of various characteristics including an improved evasion-reaction mechanism. All of this creates a unique fantasy RPG experience that will appeal to a broad audience. ENO is free-to-play with a subscription fee and a very low exit barrier. To play, there are no in-game purchases. As one of the first ENO players in Asia, New Fantasy Online has been planning to offer unique quests and designs that are a new type of fantasy RPG for years. We would like to offer this to the ENO global audience, and to become one of the first ENO clubs with diverse contents in Asia. FEATURES: ► Cutting-Edge World, Cinematic Action and Hand-Painted Graphics Since ENO is an RPG, it has very detailed graphics. The battle scenes are cinematically animated, and the graphics, in-game effects, and various other scenes are all hand-painted. ► Unique Characters with Evading and Re-Being Characteristics Enemy characters have the characteristics of their classes, but the details on how they are changed when they are hit are very different. ◎ Special Flash Points ENO has flash points, so the battles are a cycle where characters from the same class fight and change characteristics. A flash point is where skills are displayed. Although skills are issued from your equipped weapon, the effects of skills displayed at a flash point will differ depending on the number of times you displayed the skills. Furthermore, as the number of times you displayed the skills increases, the effect also increases, so there are many different skills. ◎ Unique Characteristics ENO has a powerful combination of characteristics, and as a result, each character has a high combat proficiency. ◎ Resolution Matching System Like other games, you will resolve the enemy in

Rise, Tarnished is an action RPG that creates a dramatic story that you can relive and experience the excitement of the drama in the game world. "This is an RPG game that is truly amazing and makes me feel the power of the Elden Ring" First of all, I want to say that the RPG genre is not my favorite, so it should be noted that I do not play them very often. I had a hard time getting this game because it was released without any VR content due to problems at the developer, but it was worth it and I've been playing a lot. The one thing that really drew me to this game is the fantasy drama that happens after the main story. It's a story that is just as fun as the main story. The game lets you play as one of the Elden Lords, and you get to see the drama unfold from several different perspectives. "The game is quite fun and a big improvement over last year's title" Escape the Elden Ring, the game is a fantasy RPG type game that tells the story of Tarnished and his journey to unlock the power of the Elden Ring. The game starts with you going to claim the Elden Ring that will grant you the power and force to destroy the "Elden Order" that is currently taking over the world. As you walk the lands between, you will see new events happen and meet new characters. The game that happens after the main plot is a bonus, and it's great to see a game that features a side story with new characters and settings. "The game has a deep and fascinating storyline that is well-paced and well-written" The story of the main game is great, and it makes the game great, especially if you take a break from the story to listen to the side story. This game has a lot of depth and a unique flow to it, and it's definitely worth playing. "This is the kind of RPG I wasn't expecting to see" What I really like about the game is the way it is written. The characters are great, they are well-written, and the game gives the player the feeling of being in a live-action RPG. The side story offers new characters and settings that have their own drama, and it's great to see a fantasy story that makes me feel like it's all happening in front of me, such as the story from Chrono Trigger. bff6bb2d33
