Hardware AutoCAD uses a 32-bit x86-based operating system. For file and database storage, the program uses a proprietary file format called AutoCAD/MAP. With AutoCAD 2003, 2 GB of RAM is needed to work, with AutoCAD 2007 and 2010 being capable of working on up to 4 GB RAM. AutoCAD 2011 may support 16 GB RAM, but this capability is not available on all machines. Since AutoCAD 2006, AutoCAD is required to be installed on a 64-bit computer. AutoCAD 2012 and later run as a 64-bit executable on a 64-bit operating system. AutoCAD 2012 is not compatible with 32-bit versions of Windows Vista and Windows 7. However, it is possible to run AutoCAD as a 32-bit application under Windows 8 and Windows 10. AutoCAD 2012 and later uses X11 as its main windowing system. AutoCAD 2012 and later supports Windows 8, Windows 7, Windows Server 2008, Windows Server 2012, Windows Vista, Windows XP, OS X, and Solaris. AutoCAD 2013 has a universal version that runs on Windows, OS X, and Linux. AutoCAD 2016
