Radio Commander: When the ground war started in the world the fighting on the sea were quickly intensifying. The continents were invaded by the opposing nations while the Atlantic Ocean became a theatre of war. We see the consequences of such a conflict as the result of more diverse conflicts is more effective and powerful if you manage the larger picture. Today the conflict on the sea is not only a battle of submarines, but also a battle of battleships, destroyers, frigates, aircraft carriers and other important pieces of navy. The game is based on an extensive naval power. To ensure the right integration into the game, we made both naval warfare and aircraft design to be the developer's priority. Radio Commander is an extensive strategy game that puts you in command of a large naval battleship. The game is a single player, turn-based, tactical naval simulation game in which you lead your battleship squad to victory in global naval war against other players and AI. Key Features: DIMENSIONS: Developed for consoles (360, PS3, PS4, PC). EFFECTIVE RADIOS: The game's radiotelegraphy plays a key role in the naval war. You can easily exchange messages with the other players (a lot of them in real time) while working out a plan for your battleship squadron and the ships in the other's fleet. OPTIMAL NAVAL FORCE: If the battleships and aircraft to be used in the global conflict are not up to the task, the crew needs to improve their skills. Get help from other players who share your missions. Manage your own reputation and the reputation of your unit. These reputation points will allow you to unlock secret technologies, new crafts, weapons and other advantages. OPTIONAL LAND COMBAT: Every player may join the battle at the theatre of war during a certain period of time. You do not have to wait for the rest of the squad. DYNAMIC GAMEPLAY: Every battleship squad has its own combat tactics. It is your task to organize all squad members in your favor. If you lack a suitable unit to your mission you can even select one from other players. INTENSIVE NAVAL COMBAT: Players are rewarded for their work and destroyers are rewarded for their numbers. The more units you have the more powerful your clan. Your naval clan in Radio Commander can be formed from a number of battleships. REALISTIC ART, DESIGN AND 3D c9d1549cdd

Game Reddit: If you are interested in support, you may send us a PM and we can work something out. *** Only TEXT ME FOR MANAGEMENT PURPOSES ONLY *** We were contacted about this Hackintosh by a user using the name, "thesnowman" Now this user was the only one to contact us and ask for help. They said they liked the Hackintosh, BUT they wanted more Ram. In the video, you'll notice we have them, by sending them a PM, we were able to work out a deal for them to get exactly what they need! When we work with users, the first thing we always want is to be clear with them and in the case of this video, we were. So please, if you're ever unsure if we'll work with you on a video, please PM me and we can work it out. Tips and tricks for this Hackintosh and more will be coming very soon. Once again, thank you to thesnowman for making this Hackintosh a reality for you. Here are some Tweaks to thesnowman's Hackintosh. These will be in new colors, though the Psp color is the same from before. * Black color scheme (7/3/17) * Top RAM is "8GB 1333Mhz" * Bottom RAM is "8GB 2400Mhz" ***PS: We HAD INTENDED on releasing this Hackintosh, but unfortunately, the user's original PC had the Blue Screen error on the install. It could have gotten ruined, so we took it out of contention. We'll be adding the computer back in, though there will be NO 4GB video card in this Hackintosh. It will be run solely off the XVC (via PCIEX16) and the memory card slots. *** These Instructions are for ASUS P9X79 DELUXE NON-STANDARD Unboxing, including what we did and in some cases what we did not do. *** Update 14/11/15: These instructions have been updated to reflect the original ASUS P9X79 Deluxe Unboxing*** Enjoy! Wrongworld is a first person survival game in which you must fight to survive and to put your mind at ease. Make sure you have everything you need to stay alive and make it to your goal. If you die you respawn a few feet away from your previous body. You are alone in this dangerous land, so you need to rely on the items you can gather. Fire, alcohol, shelter, food, tools, weapons... these are the essential things in this world, but you will have to find a way to survive, alone. If you like this game and want to check out more games from this developer please check out more of his games at jquery document.ready not firing in chrome extension content script I'm trying to load a website content script into a chrome extension. The script depends on jquery but the script loads without error when executed from the content script. However the script never executes the document.ready functions. I've tried putting the script in a closure but then the script won't load at all. var loadScript = function(path){ $.getScript(path) .done(onScriptDone); } var onScriptDone = function(){ alert("done!"); } Thanks for the help. A: This works for me in a content script: chrome.tabs.executeScript(null, {file: ''}); To have jQuery in the Content Script, it needs to be loaded outside. For example, in manifest.json, write a script element which points to it: "content_scripts": [{ "matches": [""], "js": ["jquery.js"], "run_at": "document_idle" }], "js": ["jquery.js"] You can also use the manifest.json to have a remote script and let the extension load it in an overlay page, and inject it in the page using chrome.tabs.executeScript. In that case, the remote script would need to
