

Nfs Underground 2 Vinyls Bin File 73 [BEST]

i23sonnyqari1204giovanniDM You sir couldn't have said it better. NFS has been long dead for fans, due to them removing away the awesomeness from nfs underground/underground2. Why I'm thinking they tried something different which always ends up screwing things up. Anyways I'm hyped for it, especially reading about it on such a site like SpeedHunters. We're all ready to hook our rides up 'hopefully' with spoilers/bodykits/rim paints/ lowering options :p It's all excitement, but let's let more trailers come out, because not until we the consumers play the game...can we dictate whether E.A and Ghost Studios Really did what WE the consumers Asked for Anyway, for argument's sake, let's say that the physics are good, the add on's will be good, the graphics can be good and the add on's reflect a good gameplay. If the cars are slow, and the add on's are slow, the game will be slow. Nothing like what Underground 2 originally was, so you're making a mess of the good things as you keep on changing and evolving just because you want a bigger audience. Ok so there is a beta and yeah I haven't played it but from what I can tell it's basically the same as the NFS Underground so in a lot of ways it's a disappointment. This isn't a sim at all and it's not worth the money if you want a fun gaming experience. I was hoping for the kind of racing iRacing is now but this is just a mode for everyone to make the most amount of money, they just add a racing mode to their sim game. No doubt this will sell on ps4 because it's a racing game but it really isn't. Good luck to anybody who buys this because it's a scam.
