An all-in-one software for text replacement, keyword substitution, time-saving macros for Windows. Keymacro is a powerful software that replaces small portions of the text in any file, by inserting text, numbers, letters, names, dates, formulas and so on. You can insert any text you want to, on any text or any character position, to increase the speed of your work. The macro language is very simple, and you can enter any text you want, including comments. Keymacro is very easy to use and you can easily get up and running in no time. Additionally, it can work in real-time as soon as you've inserted the macro, without displaying the resulting text until you've completed the macro. Keymacro has been used for time-saving macros for over three decades, and its authors say that it was developed with years of hands-on experience in the industry. Their aim was to provide the highest-quality software. In addition to making the macro work in real time, Keymacro also allows you to create and use any kind of templates, such as "You're List", "You're Skills" and "You're Knowledge". With Keymacro you can create macros to: Write or type any text, name, date or number in any file; Incorporate any text, character, numbers, date or formula into any word or text; Change text and character size; Change text color, background, foreground and underline. Furthermore, you can: Sort by name, size, date or alphabet; Replace all text in files, excluding lines, by inserting the text you want to use; Show file name, name and size, not the contents of the file; Select any words in any file and replace them with other text. Keymacro allows you to insert, sort, replace or delete words, numbers, letters, formulas and any other text, text style, character, name or date. Keymacro can be used for a variety of tasks, ranging from saving time, removing duplicate lines, turning text into code, splitting files into smaller

chunks, creating backups, splitting documents into smaller files, inserting text and much more. KEYMACRO Features: □ The fastest text replacement in the industry, full compatibility with Windows □ Works with any kind 2edc1e01e8
